READ THE BOWDEN NEWS

Local Jottings

Divine Service will be held in
St Matthews Church, Bowden, on
Sunday, October 27th at 7.30 p.m.

S. Hilton was a business visitor
to Olds on Wednesday.

Mr. O. W. Chamberlain of Bow-
den left on Sunday evening for an
extended tour in the East.

D. M. Skinner, after getting get-
ting his grain threshed will leave
here for Munson, and at which
place he intends working in the
office of the Munson Mail.

There will be a joint meeting of
the Methodist and Presbyterian
Churches of Bowden circuit in the
Presbyterian Church Thursday,
October 31st at 2 p.m. to come to
some special arrangement in regard
to the union of the two bodies. The
Rev Dr. Brown and Rev. Barner
of Red Deer will be in attendance.
A good representation from all of
the out appointments is asked for.

Mr. and Mrs. Kedward moved
out of town on Wednesday to live
on their homestead a few miles
east of Bowden.

Mr. and Mrs. Keene arrived back
in town on the 19th inst after spend-
ing a few weeks vacation in Colora-
do.

A. Hopkins of the Summit Dis-
trict was a business visitor to Bow-
den on Tuesday.

J. McBlane was a visitor with
his parents at Red Deer on the 19th
and 20th inst.

SUFFERERS FROM PILES

Zam-Buk Has Cured These!

Friction on the hemorrhoid veins that are swollen, inflamed and gorged with blood, is what causes the terrible pain and stinging and smarting of piles. Zam-Buk applied at night will be found to give ease before morning. Thousands of persons have proved this. Why not be guided by the experience of others?

Mr. Thomas Pearson, of Prince Albert, Sask., writes: "I must thank you for the benefit I have received from Zam-Buk. Last summer I suffered greatly from piles. I started to use Zam-Buk and found it gave me relief, so I continued it, and after using three or four boxes I am pleased to say it has effected a complete cure."

Mr. G. A. Dufresne, 183-185 St. Joseph Street, St. Roch, Quebec, P. Q., writes: "I can highly recommend Zam-Buk to everyone who suffers from piles."

Magistrate Sanford, of Weston, King's Co., N.S., says: "I suffered long from itching piles, but Zam-Buk has now cured me."

Mr. William Kenty, of Upper Nine Mile River, Hants Co., N.S., says: "I suffered terribly from piles, the pain at times being almost unbearable. I tried various ointments, but everything I tried failed to do me the slightest good. I was tired of trying various remedies, when I heard of Zam-Buk, and thought as a last resource I would give this balm a trial. After a very short time Zam-Buk effected a complete cure."

Zam-Buk is also a sure cure for skin injuries and diseases, eczema, ulcers, varicose veins, cuts, burns, bruises, chaps, cold sores, etc. 50c. box from all druggists and stores, or post free from Zam-Buk Co., Toronto, for price. Refuse harmful imitations. Try Zam-Buk Soap, 25c. tablet.

Contagious

The pretty young matron having come unexpectedly into the nursery, found her youngest, the blue-eyed golden-haired Irene, in tears, and Smifkins, the nurse, vainly endeavoring to comfort her.

Why, what's the matter with my wee pet? asked the fond mother, taking the agitated child into her embrace. What's mamma's darling crying for?

She's cross, mum, explained the nurse, because I wouldn't let her go to the Brown's birthday party across the way.

Oh, I quite forgot that invitation, said the mistress; but why is Miss Irene not to go?

Because, mum, the Browns 'ave got charades, so Miss Bella says, and I wasn't sure whether Miss Irene 'as had 'em or not. Some things is so very catchin'.

SIX YEARS USE OF
BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets she will always use them as long as there are little ones in the house. They are absolutely safe and never fail to cure constipation, colic, indigestion or the many other babyhood and childhood ailments. Concerning them Mrs. E. Simmons, Hamilton, Ont., says: "I have not been without Baby's Own Tablets for six years. I have given them to my three little ones and find them excellent during teething and at other times." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

An Imaginary Leaf

At the ration store of one of our Irish regiments, Mike Rafferty, an old soldier, was engaged in handing the oaves of bread to the elderly men in their turn. Suddenly he turned to the quartermaster, and with a twinkle in his eye said—

Av ye plaze, sor, there's a loaf short, whill I give it to?

Keep it yourself, Mike, replied the quartermaster.

Through indiscretion in eating green fruit in summer many children become subject to cholera morbus caused by irritating acids that act violently on the lining of the intestines. Pains and dangerous purgings ensue, and the delicate system of the child suffers under the strain. In such cases the safest and surest medicine is Dr. J. D. Kellogg's Dysentery Cordial. It will check the inflammation and save the child's life.

The evening callers were chatting gaily with the Kinterbys when a patter of little feet was heard from the head of the stairs. Mrs. Kinterby raised her hand, warning the others to silence.

Hush, she said softly. The children are going to deliver their good-night message. It always gives me a feeling of reverence to hear them—they are so much nearer the Creator than we are, and they speak the love that is in their little hearts never so fully as when the dark has come. Listen!

There was a moment of tense silence. Then—

Mamma came the message in a shrill whisper. Willy found a bed-bug!

For some time in Vienna street savings banks have been in vogue with considerable success. These savings banks are an adaptation of the penny-in-the-slot machine. Anyone passing wishing to deposit a small sum drops his money into the slot. Instead of receiving bon-bons or chocolate in return he gets a ticket for the coin deposited. The tickets are later honored on presentation at a Government Department. Encouraged by the success of the Vienna experiment the people of Paris are to introduce the same system into their streets.

He Scored With the Report

There is a story told of R. C. Hamilton, the once Glasgow Rangers' famous centre-forward, when his team were playing a holiday match in the North of Scotland. The Rangers' team had a regular day-out, as one might say; all the forwards scoring with the exception of Hamilton. Under these circumstances the team unanimously selected Hamilton to write an account of the match, as his version would be the most unbiased. They were a bit taken back to read when the report appeared in print, to the effect that so-and-so scored goals for the Rangers, the entire credit of which was due to the admirable passing of Hamilton!

A Lightship has just been placed in commission in Germany that is provided with a complete equipment of the most modern devices for aiding and warning mariners. In place of the old-fashioned mast-beacons, the vessel carries a single powerful electric light set on top of a hollow mast or shaft, through which the light can be reached in stormy weather. The lightship has wireless telegraph and fog and submarine signals. Diesel oil engines run a dynamo, and two large accumulator batteries store the electric current for emergency use. The new vessel is 150ft. long and 25ft. wide. It will be stationed near the shallows at the mouth of the River Elbe.

Clergy in Belgium are allowed three votes, on the ground of superior education.

A Slight Mistake

There is a railroad out in Colorado, according to the story of a Western traffic manager, which seems unable to form anything like an intimate acquaintance between its trains and the advertised schedules. Its trains are so proverbially late that there is a mild celebration every time one reaches its terminal on time.

A few weeks ago the word was passed about the little town that No. 2 would get in on time, and there was a big crowd at the station. Some generous citizen provided quantities of red fire, and set it off along the track.

What's the celebration? the conductor asked when he jumped off at the station.

Train actually got in on time! explained the crowd.

Put out your fires, the conductor snorted. Don't you know that we're just twenty-four hours late?

Merchant (to clerk)—This won't do. Every time you see a 6 you call it a 2. What is the matter with you, near sighted?

Clerk—No sir. It's a matter of habit. I used to work in a ladies shoe shop.

A MARVEL
OF HEALINGSALT RHEUM OF TEN YEARS
STANDING HEALED AS IF BY
MAGICHands Cracked, so Could not Work—
Cures Effected by

DR. CHASE'S OINTMENT

It does not take long for Dr. Chase's Ointment to prove its magic healing power. A single night is often sufficient to produce the most startling results.

Internal treatment for skin diseases is nearly always disappointing. By applying Dr. Chase's Ointment to the diseased parts, relief is obtained almost immediately, and gradually the sores heal up and disappear. Here are two letters which will interest you:

Mrs. Coas, Gilbert, Haystack, Placencia Bay, Nfld., writes: "I was a sufferer from Salt Rheum for ten years, and had about despaired of ever being cured, so many treatments had failed. Reading of the wonderful cures effected by Dr. Chase's Ointment, I commenced using it, and was entirely cured by eight boxes."

Dr. Chase's Ointment, 60c. a box, at all dealers, or Edmanson, Bates & Co., Limited, Toronto.

Last night my wife and myself had the most foolish squabble of our married career. What was the subject of your dispute?

How we would invest our money if we had any.

GOOD STUFF
A Confirmed Drinker Takes to Postum
A housewife was recently surprised when cook served Postum instead of tea and coffee. She says:

"For the last five or six years I have been troubled with nervousness, indigestion and heart trouble. I couldn't get any benefit from the doctor's medicine, so finally he ordered me to stop drinking coffee, which I did. (Tea is just as injurious because it contains caffeine—the drug in coffee.)

"I drank hot water while taking the doctor's medicine, with some improvement, then went back to coffee with the same old trouble as before.

"A new servant girl told me about Postum—said her folks used it and liked it in place of coffee. We got a package but I told her I did not believe my husband would like it, as he was a great coffee drinker.

"To my surprise he called for a third cup, said it was 'good stuff' and wanted to know what it was. We have used Postum ever since and both feel better than we have in years.

"My husband used to have bad spells with his stomach and would be sick three or four days, during which time he could not eat or drink anything. But since he gave up coffee and took to Postum, he has had no more trouble, and we now fully believe it was all caused by coffee.

"I have not had any return of my former troubles since drinking Postum, and feel better and can do more work than in the last ten years. We tell everyone about it—some say they tried it and did not like it. I tell them it makes all the difference as to how it's made. It should be made according to directions—then it is delicious."

Name given by Canadian Postum Co., Windsor, Ont. Read the book, "The Road to Wellville," in pkgs.

"There's a reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Not Yet

The General was inspecting a regiment of Territorials, the Colonel of which was a notoriously bad horseman. As the band struck up the march-past the Colonel's horse plunged violently, and the officer was nearly unseated. Every man in the leading company was very interested in his efforts to retain his seat, with the result that the front rank became bunched up and badly out of line.

Base off, there, shouted the Captain angrily. He ain't replied a laughing recruit, but I'll bet he won't keep on for another two minutes.

Minard's Liniment Relieves Neuralgia

Complainant—Your worship, she struck me in the face with her clenched fist. That cut was caused by her ring.

Magistrate—Where did she get the ring?

Complainant—I gave it to her. It was our engagement ring.

Magistrate—The prisoner is discharged. That is clearly a case of contributory negligence.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Graves' Worm Exterminator, the best remedy of the kind that can be had.

Sign Was Effective

The residents of one of the small California towns near Los Angeles were annoyed at the constant speeding of motor drivers over the good roads of that section, and so, after much discussion, decided to place under the wheels of motor cars and dogs under the wheels of motor cars a

made a protest by erecting a sarcastically worded signboard, reading—
Slow down to 65 miles.

Many a driver who would disregard the ordinary caution to run at the legal rate of twenty miles an hour is forced to grin at the humour of this appeal and proceed at a more reasonable speed.

HAUNTED

BY
GERTRUDE WARDENAuthor of "Dancing Leaves,"
"The Sentimental Sex," "The
Crime of Monte Carlo,"
etc., etc.WARD, LOCK & CO., LIMITED
London, Melbourne and Toronto

(Continued)

He checked himself as the figure of a man darkened the window entrance. Lillias Morgan was seated near the tea-table, as far as possible from the window, in complete shadow. But a shaft of dull yellow light from the storm clouds illumined the figure of Lady Anne as she stood, white, motionless, with arms straight at her sides, and her head proudly erect, to receive this man.

To Harry she had never looked more beautiful, although there was something strained and defiant about her attitude which he could not understand.

The stranger, she had called Marion's son entered with a confident swagger, but even his self-sufficient jauntness was cowed for the moment by that queenly presence, with the aureole of pale gold hair about the white face and the blue eyes filled with a cold, hard brightness.

He advanced a few steps towards her, but as she did not move, he stopped.

Do you remember me, Anne? he asked in a voice which he tried to make indifferent.

No.
Yet you ought to. You stayed with my mother in London about seven years ago, and I came over from Melbourne during that time. Surely you must remember? She took a house in Brook Street and you were there a week.

I do not remember.
I tried to see you the other day, the young man went on, his dark skin growing redder with the vexation he endeavored to hide. But you were out, and they made no end of a bother about letting me in to-day.

Had you written to me, said Lady Anne slowly, or made your presence known in any ordinary way there need have been no difficulty. But when without giving your name, you tried to force your way in and declared to me you were a stranger, I was obliged to

So it does! the young man said bluntly. But that need not make us enemies. I see you are busy now with friends, he added, glancing with disfavour at Harry and Lillias, but presently, after you have given me a cup of tea, we will have a chat, and I will explain to you how the land lies. If you have an explanation to give, Mr. Symonds—

Reuben. Surely you remember my name? Reuben Payne Clavel Symonds. If you have any explanation to make, Mr. Symonds, repeated Lady Anne, you can give it now. Unless you prefer to write it? Miss Morgan, will you give Mr. Symonds a cup of tea?

If you want to have the explanation now and here, you shall! Reuben Symonds said angrily. My father Sir Joseph, has been dead five years,

The Best Treatment
for Itching Scalps
and Falling Hair

To allay itching and irritation of the scalp, prevent dry, thin and falling hair, remove crusts, scales and dandruff, and promote the growth and beauty of the hair, the following special treatment is most effective, agreeable and economical. On retiring, comb the hair out straight all around, then begin at the side and make a parting, gently rubbing Cuticura ointment into the parting with a bit of soft flannel held over the end of the finger. Anoint additional partings about half an inch apart until the whole scalp has been treated, the purpose being to get the Cuticura ointment on the scalp skin rather than on the hair. It is well to place a light covering over the hair to protect the pillow from possible stain. The next morning, shampoo with Cuticura soap and hot water. Shampoo alone may be used as often as agreeable, but once or twice a month is generally sufficient for this special treatment for women's hair. Notwithstanding Cuticura soap and ointment are sold everywhere, those wishing to try this treatment may do so without expense by sending to "Cuticura," Dept. 4M, Boston, U. S. A., for a free sample of Cuticura soap and ointment, with 32-p. book on skin and hair.

SCOTT, HILL AND CO.

22 Canada Life Building,

Winnipeg, Man.

and I have been managing his business in Melbourne. My mother died a year ago. By the advice of my solicitors, I have come over to claim this property of the Clavels, to which I am sole heir. And, because I have a bit of human feeling, I have come to the Abbey to look you up as an old friend, and to ask what you have done with that unhappy woman, Lady Clavel.

CHAPTER XXXIV

Lady Clavel

Lady Anne was still standing as she had done since Reuben's entrance. Outside, the sky was growing momentarily blacker; the corners of the long, low-roofed room were plunged in deep obscurity; all the light there was centred itself upon the tall, fair woman in the white dress with the set, hunted look upon her face.

All three of the other persons present had their eyes fixed upon her, and seemed to hang upon her answer. To Harry, as he stood in the shadow a little to the left, with his cousin Reuben on her right, it seemed that she was fighting for something, some cause or some person, but what he could not guess.

Something she was certainly revolving in her mind in the pause which followed Reuben's question, a pause rendered more impressive by the strange hush in the air outside, through which the first low growls of thunder were sounding.

Suddenly, as though moved to some resolve, Lady Anne addressed Harry, and asked him to ring the bell.

To Lisette, who answered it, she gave an order in a low voice, which the French girl at first failed to understand, so that her mistress was forced to repeat it.

Ask Maria to bring her mistress here.

Everyone heard the words this time and when Lisette left the drawing-room the eyes of Lillias, of Harry, and of Reuben fixed themselves mechanically with an eagerness which they could not restrain, upon the door.

Darker and darker grew the room. A sensation of sick, physical terror was beginning to invade Lillias Morgan's senses as the storm grew nearer, but in the nervous tension of the moment she dared not move or draw attention to herself.

Even the white dress of Lady Anne glimmered but faintly in the premature night which came upon them.

No one spoke; no one heard the opening of the drawing-room door or saw the silent entry of two persons, the one supporting the other by the arm.

Then a jagged line of forked lightning flashed into the room; and, darting here and there, illumined the face of a tall bent figure halting by the doorway in front of the Spanish servant Maria.

Haggard, emaciated, and of an unearthly pallor, it was the face which Harry Clavel had already seen on two occasions, once in the Abbey cloisters and again at the steps of the altar in the chapel.

The lightning flashes lit up the great hopeless, black eyes, the pinched features, the sunken mouth, and the strange monastic gown of coarse dark serge which hung loosely on the shrunken frame.

Then the light disappeared, and right above their heads the thunder crashed with a deafening uproar, rocking the old house to its foundations.

No rain came, but a second time the room was alive with darting points of electric light, and the thunder volleyed out, seeming to bombard the roof and chimneys of the Abbey.

Maria began crossing herself devoutly, and, hurrying forward she closed the French windows leading into the garden. Unnoticed and forgotten, Lillias Morgan had slipped off her chair and was crouching in a corner of the room behind it. Even the men were somewhat unnerved by the noise, the flashing light and the dramatic apparition of that ghostly figure out of the darkness.

(To be Continued)

It Rubs Pain Away.—There is no liniment so efficacious in overcoming pain as Dr. Thomas' Electric Oil. The hand that rubs it in rubs the pain away and on this account there is no preparation that stands so high in public esteem. There is no surer pain-killer procurable, as thousands can attest who have used it successfully in treating many ailments.

Coal exported from the United Kingdom last year exceeded sixty-four and a half million tons.

So you were bound and gagged by bandits while in Italy, were you? asked a sarcastic man of a friend who had travelled. Regular comic-opera bandits, eh?

No, said the other, there was nothing of the comic-opera style about them. The gags they used were all new.

NEW C.P.R. STEAMSHIPS

In speaking of the two new steamships the "Empress of Russia" and the "Empress of Asia," which the Canadian Pacific Railway is building for service on the Pacific Ocean between Canada and the Orient, a C.P.R. official remarked yesterday that he felt justified in saying that the two new boats would be the safest vessels afloat.

In preparing the plans for the new "Emperesses," he remarked, "we took particular care to make provision for all exigencies, and as a result the boats are as near to being unsinkable as can be built. The new "Emperesses" are being built with double bottoms and watertight compartments, the latter being numerous and closely placed. Ordinarily, if a ship is designed to float with only two compartments flooded, a sufficient margin of safety is thought to have been allowed, but in the cases of the new "Empress of Russia" and "Empress of Asia," should four compartments be flooded they will still float.

In the matter of safety, these are the first vessels built to fulfill these conditions. It was also stated that the new steamships would be equipped with all the other latest devices making for safety, such as wireless apparatus, search lights, submarine signals, and from the very moment they are assembled, the members of the crew will be trained in the life saving, fire and other drills, which are a feature of all this Company's steamships.

Not Intended

Mary—I was pouring myself out a glass of wine in the drawing-room when the butler pounces on me and says: Hello! I will have none of that. And what did you say, Mary?

I said I did not intend to offer him any of it.

Minard's Liniment for sale everywhere

A Moving Story

A debate was overheard between some working men: as to whether it was cheaper to move or to pay rent. Opinion being about equally divided, they referred the question to the oldest man they knew.

Is it cheaper to move or to pay rent, Bill?

Said he: Well, mates, ye see I ain't exactly in a position to say. I've always moved.

The Last Asthma Attack may really be the last one if prompt measures are taken. Dr. J. D. Kellogg's Asthma Remedy will safeguard you. It will penetrate to the smallest bronchial passage and bring about a healthy condition. It always relieves and its continued use often effects a permanent cure. Why not get this long-famous remedy today and commence its use? Inhaled as smoke or vapor it is equally effective.

Fitzjones—Did you go to the theatre last evening, Percy?

De Brown—No, I attended a sleight-of-hand performance.

Fitzjones—Where?

De Brown—I went to call on Miss de Smythe and offered her my hand but she slighted it.

Baltimore, Md., Nov. 11, 1903.
Minard's Liniment Co., Limited.

Sirs,—I came across a bottle of your MINARD'S LINIMENT in the hands of one of the students at the University of Maryland, and he being so kind as to let me use it for a very bad sprain, which I obtained in training for foot races, and to say that it helped me would be putting it very mildly, and I therefore ask if you would let me know of one of your agents that is closest to Baltimore so that I may obtain some of it. Thanking you in advance I remain,
Yours truly,

W. C. McCUEAN.

14 St. Paul street,
Care Oliver Typewriter Co.
P.S.—Kindly answer at once.

During a discussion of the fitness of things in general, someone asked:—
If a young man takes his best girl to the grand opera, spends fifteen shillings on a supper after the performance, and then takes her home in a taxi-cab, should he kiss her good night?

An old bachelor who was present growled—

I don't think she ought to expect it. Seems to me he has done enough for her.

Chinese Logic

A tourist, in pricing tea in a Chinese store in Shanghai, was surprised to find that he could purchase five pounds of a certain kind of tea for two dollars, but that if he bought ten pounds the price would be five dollars. The tourist argued with the Chinaman that such an arrangement was ridiculous, but the proprietor of the store insisted that logic was on his side. More buy, more rich. More rich, more can pay, he explained.

It is the duty of every one of you to make at least one person happy during the week, said the Sunday-school teacher. Have you?

I did, said Johnny promptly.
That's nice. And what did you do?

I went to see my aunt and she's always happy when I go home again.

NA-DRU-CO
LAXATIVES

Women's commonest ailment—the root of so much of their ill-health—promptly yields to the gentle but certain action of Na-Dru-Co Laxatives.

WHAT ARE YOUR
KIDNEYS FOR?

To filter poisonous acids and waste matter from the system. What happens if the kidneys are not in perfect condition? They cannot properly filter the poisons from the blood. What then? First backaches, pains in the joints and muscles, frequent headaches, then spots before the eyes, rheumatic pains, then chronic kidney disease in which—at great expense—only temporary relief can be had. Finally, constant suffering ending in premature death.

The alternative, when the kidneys begin to warn of their unhealthy condition, is to take DR. CLARK'S SWEET NITRE PILLS. They will help the kidneys and keep them healthy for the future. Sold everywhere at fifty cents a box or mailed direct by

More About
The Loading Platform

The present generation of Western farmers will never know the difficulties and vexations experienced by their predecessors in the earlier years when no one could get a carload of grain shipped in bulk except by loading it through an elevator. The system forced the majority of farmers to sell their grain to the elevator owners at arbitrary prices, and oft times to submit to heavy dockage and other annoyances, causing continual dissatisfaction. Now, however, the distribution of cars is fixed by the Grain Act, and the use of the loading platform, provide facilities which enable the farmer to secure satisfactory treatment in the disposal of his grain, and the highest market prices at time of sale. Every farmer therefore, should more and more endeavor to use the loading platform in shipping his grain to the terminal elevators. It is the safeguard of the farmers' freedom in disposing of his grain to the best advantage for himself. If farmers refrain from using the loading platform freely, it might result in its being done away with, because railway companies and elevator owners are strongly opposed to it. It is easy to understand why elevator people desire the loading platform abolished. The railway people on their part say it delays the loading of cars and helps to ensure car shortage. This we know to be nonsense, because frequently after cars are loaded, whether with grain, coal, lumber, or other merchandise, they are sidetracked for days and even weeks instead of being promptly moved forward to destination. It is engine shortage and shortage of competent train men that mostly causes grain blockades on railways and not lack of cars. Let every farmer therefore, do all he can to use the loading platform and become an independent shipper. In subsequent advertisements we will state in detail the savings and other advantages of direct loading into cars compared with loading through elevators.

We handle the farmers grain strictly on commission, make liberal advances on car bills of lading, supervise the grading at time cars are inspected, secure the highest prices at time of sale, and make prompt returns when sold. Write us for shipping instructions and market information.

LOW RATE ON WHEAT

C.P.R. OFFICIAL MAINTAINS THE RATES ARE REASONABLE

Declares That Weather Conditions, Wages and Fuel Contribute to Necessity of Higher Rates in the West—Says Through Rate Cheapest in the World.

Ottawa.—The railway board delved into another mass of facts and figures submitted by the C.P.R. in connection with its defence of its western freight tariffs in the western rates case. The C.P.R. did not close its case but towards the end of the sitting witnesses for the company gave place to Mr. D. B. Hanna, vice-president of the C.N.R. system, who was being examined by F. H. Philpott, when the board rose. Mr. Hanna agreed with Vice-President Bosworth of the C.P.R., that water competition controls the rate situation in the east. He said that if it was not for this competition eastern rates would be increased. He declared that in many ways the cost of operation is higher in the west, notable on account of the weather conditions, the higher range of wages and the greater cost of fuel.

W. B. Lanigan, freight traffic manager in the west, was the star witness for the C.P.R. He maintained that the western rates were reasonable and that the through rate on grain to Fort William is the lowest in the world.

Mr. Lanigan was cross-examined at length by W. A. Macdonald, in regard to the possibility of an export wheat trade being developed via Vancouver. He said that while the C.P.R. was anxious to see this done, the present high rates for ocean carriage and insurance make it practically impossible. No reference was made to the conditions which will be created by the completion of the Panama Canal. The general cross-examination of the C.P.R. witnesses by counsel for the federal and provincial governments and the Winnipeg Board of Trade has been deferred until they have an opportunity to study the rate comparisons submitted by the company.

Mr. McInnes agreed with Vice-President Bosworth that it was not fair to compare British Columbia division with Lake Superior division. Proper basis of rate making, he said, would be upon traffic that originates, or is consumed in each railway division.

Mr. McInnes agreed that ocean freight at Vancouver, Montreal and St. John would be credited to these points, but not freight such as grain carried over each division for furtherance eastward. He stated that the C.P.R. had claimed exemption from jurisdiction of the railway board, and for some reason none of the traffic in use eastward from Vancouver had been approved by the board in accordance with the provisions of the railway act. An order of the 23rd of August approved of standard tariffs east of Vancouver subject to the decision of the board in this inquiry.

Mr. McInnes admitted the ability of the C.P.R. to separate local from through freight and passenger earnings, and that through rates were charged on a mileage basis throughout the entire system. Both freight and passenger business had increased since the return filed of the Vancouver board of trade investigation. The board directed that a fresh return should be filed showing the business done on each division over the whole system.

A discussion of the grain situation obtained an admission from Mr. McInnes that at some seasons of the year wheat is taken to St. John from Winnipeg, a distance of 1500 miles, for 13 cents. This was a non-paying rate and a twenty cent rate earned a profit. Mr. McInnes stated that the export rate from Calgary to Vancouver, a distance of 640 miles, is 19½c., while the local rate is 32 cents. Reference was made to the reductions of seventy per cent. ordered by the United States Interstate Commerce Commission on freight eastward from coast cities and a comparison of the rates created by this reduction with those in effect from British Columbia coast cities was gone into.

ARRANGED HIS OWN FUNERAL

Address of Clergyman at Grave Limited to Five Minutes

Berlin.—Very explicit directions for securing simplicity at his own funeral were left by Doctor Kirschner, the late oberbürgermeister (lord mayor) of Berlin, who died yesterday.

His body is to be placed in a simple pine coffin and buried from the cemetery chapel without any kind of ceremonial at the town hall. Corporations, government departments and private associations are requested to abstain from sending either deputations or flowers. Public memorials in newspaper, a common custom in Germany, are forbidden, as well as funeral or memorial services of any kind, and at the burial the minister is to read only the 90th Psalm (Lord, Thou hast been our dwelling-place in all generations) and to address a few words of consolation to the family, not exceeding in any circumstances five minutes in length.

Trade Commissioner

Ottawa.—C. H. Hamilton Wickes, British trade commissioner to Canada, who succeeds Mr. Richard Gregg, lately appointed chief Canadian trade commissioner will be here soon to confer with the government before taking up his new duties. Mr. Wickes has had a very successful career in India, South Africa and England, and achieved marked success as British trade commissioner in Australia.

SMALL SEAL HARVEST

Strict Regulations Will Preserve Herd From Extinction

Washington.—The fur sealing season in the Behring Sea has closed with the smallest killing of seals in many years, and a total absence of pelagic sealing, according to reports to the department of commerce and labor. The result has been, it is declared, a considerable increase in the number of seals which were threatened with extinction by the wanton slaughter of pelagic sealers.

The total number killed off the Pribilof Islands during the season was 3,764, considerably less than the average in the past. These were killed by agents of the American government, and the skins will be sold in London, the proceeds to be distributed among the United States, Great Britain, Russia, and Japan, in accordance with the treaty signed by these governments for the preservation of the seals.

EMBARGO ON CANADIAN CATTLE

Irish Influence is Strongly Exerted Against it Being Removed

London.—It is understood that there is little likelihood of the British ports being opened to admit Canadian cattle in the near future and the refusal of Rt. Hon. W. Runciman, president of the board of agriculture to receive a deputation on the subject has caused considerable indignation among those who have been agitating for the removal of the embargo for months past. That this attitude of the government is due to the Irish influence is common knowledge, although up to recently Irish store cattle were excluded from England and Scotland. It is stated that Ireland will continue to supply them with young cattle for some time to come.

Capturing Poachers

Ottawa.—More American boats have been captured while poaching inside the three mile limit on the Pacific coast than have been taken within many years. Up to the present four American fishing boats have been caught by the Rainbow and other government steamers. Three of them were condemned by the courts and sold, while the other case is hanging fire. The naval service department reports that the Americans are the greatest offenders, the Japanese seldom infringing. Only one American boat was taken last year and it is considered the result of the activity of the government fleet will frighten fishermen in the future. Two extra steamers are being built in Great Britain for the fisheries protection service and will be completed for next year.

For Imperial Defence

London.—The Hon. T. MacKenzie, of New Zealand, who has arrived in London, declares himself entirely in favor of direct contributions to the Imperial Navy.

I am not, he said, a believer in local navies scattered all over the Empire under separate control and direction, even in time of peace, much as in time of war.

I am a profound believer in one Empire, one Navy, and I am glad to say that the New Zealanders as a whole are as deeply committed to that principle as I am.

Tariff Expert for Railway Commission

Ottawa.—The steadily increasing work of the railway commission demands the increase of the present staff of traffic experts and it is understood that the services of Mr. James E. Walsh, the present manager of the transportation department of the Canadian Manufacturers Association have been in request on behalf of the commission.

The government service, recently claimed Mr. R. W. Breadnor, the tariff expert of the Manufacturers Association, and Mr. Walsh may also shortly join the civil service under the railway commission.

Importing Irish Cattle

London.—A deputation of English agriculturists saw Mr. Runciman, president of the Board of Agriculture to-day, when the Duke of Devonshire implored him to stop the importation of Irish cattle.

Mr. Runciman in reply said his position for some months had been extremely difficult.

No cattle could be imported except from areas in Ireland free from disease.

Look out for Bogus \$1.00 and \$2.00

Ottawa.—Counterfeit Dominion bills of the one and two dollar denominations are in such abundant circulation as to cause anxiety in the Finance Department and special efforts are being made by the Secret Service to locate the source of supply.

The counterfeits are rather a clumsy imitation, yet they appear to be taken by a great many people without question and are especially plentiful in Nova Scotia and New Brunswick.

\$750,000 for Naval Defence

Capetown.—A scheme of naval and military defence for Natal has been agreed upon between officials of the South African Union and the imperial government, including the admiralty. The new works will be begun at once. They involve the removal of a lighthouse and other work, making up an expenditure in all probability of \$750,000.

Paris.—Women of Lyons have decided to disregard the injunction issued by the prefect of the Rhone against the wearing of unprotected nappies.

FIRST SHOT IS FIRED

TURKS HAVE TO EVACUATE THEIR STRONGHOLD

Ottoman Guns are Silenced Within Half an Hour After Prince Peter Directed the First Shot at Enemy's Position—Proclamation is Issued.

Podgrizza, Montenegro.—The Montenegrin army opened the war against Turkey on Oct. 9, by attacking a strong Turkish position opposite Podgrizza. Prince Peter, the youngest son of King Nicholas, fired the first shot.

This was the signal for firing all along the line, and an artillery duel ensued. Within 21 minutes five Turkish guns were silenced, and the Turks retreated from the first position on Mount Planulizza. By noon the Turks had evacuated the mountain.

Podgrizza is the headquarters of the Montenegrin forces and amid the enthusiastic cheering of the people, King Nicholas, with Prince Mirko, his second son, and staff, rode early to the mountains to survey the positions. The Montenegrin guns had been placed the night before, and strong detachments were held in reserve should the Turkish forces prove larger than the reports of the scouts indicated.

Punctually at eight o'clock the first shot was directed at the Turkish position on the hills opposite by Prince Peter, who is a captain of artillery. At the booming of the gun, the band in the Montenegrin headquarters struck up the royal hymn.

That the Montenegrin fire was effective was proved by the quick retirement of the Turks. After they evacuated the mountain, a general advance of the Montenegrin infantry was ordered. Covered by a concentrated artillery fire, the infantry moved towards the strongly fortified Turkish positions in Detitch Mountain, which commands the road to Scutari. At two o'clock the Turks issued troops on the shore of Lake Scular, near the Montenegrin frontier. A general engagement followed and continued all day over an extensive front.

King Nicholas has issued a proclamation summoning all Montenegrins to go immediately to the assistance of their brethren in Old Serbia, where he declares, women and children are being massacred.

Montenegro had hoped to secure the liberation of the Serbs in Turkey without the shedding of blood, but peaceful endeavors proved unavailing, continues the proclamation, and no other recourse was left but to take up the sword in their behalf.

We are assured in this holy undertaking under sympathy with the whole civilized world, and we will have the local assistance of the Kings of Serbia, Bulgaria and Greece, and their peoples, who in this affair have raised themselves with the Montenegrins like brothers.

The proclamation continues: Montenegro is attacking Turkey not from motives of arrogance, but inspired by a noble resolve to prevent final extermination of her brethren.

Forest Reserves for the West

Ottawa.—The forestry department this year has a large number of men in the west, partly in northern portions of the three prairie provinces, making thorough investigations into timber possibilities, and from reports which are coming to hand there will be reasons for the setting aside of a large number of new forest reserves.

The largest reserve which it is proposed to form is on the shores of Lesser Slave Lake and consists of 4783 square miles. Next to the Rocky mountain reserve it will be the largest in Canada. The report on this reserve has already reached the department.

Another forest reserve which is being recommended in northern Alberta is in the country north of Lac La Biche.

A reserve is likely in southern Manitoba, and the Saskatchewan reserve which has already been recommended, is at Fort La Corne. The proposed reserve is of 512 square mile area.

Next year the department will have an examination of the Big River country made. Large extensions will likely be made this year to the Pine forest reserve, lying southeast of Prince Albert. It will likely take in the sandy ridge extending north of the Saskatchewan river to a point east of Prince Albert.

The Porcupine reserve, in northwestern Manitoba, will also probably be extended west to take in a large portion of Saskatchewan.

Potato Embargo

Ottawa.—The department of customs is issuing an order to its collectors prohibiting the importation of potatoes from Europe, Newfoundland and the islands of St. Pierre and Miquelon. A decision to that effect protecting as far as possible Canadian potatoes from potato canker, which had done much harm in Europe was come to recently by Hon. Martin Purrell, minister of agriculture.

The effect of the order will be felt more particularly in Great Britain, for Canada imported 164,000 bushels of potatoes from that country in the four months ending July 31st. The regulation is made under the act preventing the introduction of insect pests destructive to vegetables.

London.—Many Italians and a few English veterans were present at the dinner of the London Garibaldi Veterans' Association, held at the Florence restaurant, Rupert street, last night in commemoration of the entry of the Italian army into Rome forty-two years ago.

TRADE CONDITIONS GOOD

Business Brisk in all Departments, and Railways Show 12 Per Cent. Increase

New York.—Dispatches to Dunn's Review from branch offices of R. J. Dunn & Co., in leading cities of the Dominion of Canada, state that the distribution of fall and winter merchandise is making satisfactory progress.

Wholesale trade is maintained at Montreal, cooler weather stimulating the demand for heavy dry goods and clothing. Boot and shoe manufacturers are very busy, leather is extremely firm, and hides have again advanced. Groceries are in fair demand, with most canned goods scarce and high. The iron market is active, buyers operating extensively in anticipation of higher prices. There is a good retail trade in seasonable lines at Quebec, and wholesale business is up to the average for this season.

Toronto reports a good wholesale movement of general merchandise, especially in heavy dry goods, clothing and footwear. Groceries are in liberal request. Hardware and building supplies are moving freely, and the strength in hides and leather is fully maintained. Active retail trade is reported by Hamilton, demand being stimulated by the appearance of cooler weather, while wholesale distributions keeps up well, and prospects are very promising. With satisfactory crops now assured, fall business in the far west and northwest is showing marked activity, with all classes of merchandise in heavy demand.

Winnipeg reports that retail trade in some lines is affected by warm weather, but that wholesale departments are busy, the movement of merchandise being stimulated by the excellent harvesting results. General trade conditions continue favorable at Saskatoon, and collections are improving. Heavy frosts in the vicinity of Edmonton have done no damage, as the grain is in stock. The situation in mercantile lines continues very satisfactory, the volume of business at Calgary showing a large increase, and trade is brisk in groceries, provisions, dry goods, boots and shoes and hardware.

Gross earnings of all Canadian railroads reporting for three weeks in September show an increase of 12.7 per cent., as compared with the earnings of the same roads last year.

Commercial failures in the Dominion of Canada this week numbered 27 against 24 last week, and 20 the same week last year.

Diamonds Expected From North Quebec

Cobalt, Ont.—It is expected that Walter Taberner a well known Northern Ontario prospector, will shortly reach here with the first lot of diamonds from the reported diamond fields bordering on Hudson Bay. He was in the Nottoway River district last winter and went in again early last spring with a gang of men. They remained in the country all summer and must have struck it rich from the length of time spent there. Taberner first received his information regarding diamonds in Northern Quebec from a Chicago man, who claimed to have been in the country eighteen years ago and to have brought out \$100,000 worth of diamonds. He provided maps and directions, which Taberner on his first trip found to be accurate. He succeeded in locating the old camps and workings. It is stated the gems are the blue clay workings geologists have stated as the proper formation for diamonds. Other prospectors have visited the north, but have failed to bring back anything better than good looking diamond matrix.

Bank Loans for Farmers

Winnipeg.—The movement for a Government agricultural bank in Manitoba is now fairly launched, according to the Dominion Magazine, which in its current issue goes on to define more precisely the exact scope of this proposal. The movement contemplates primarily, says The Dominion, the establishment of borrowing facilities for the cattleman and the grain grower on the same favorable terms as are now open to the lumber man, the grain man, and the real estate operator. There is no fundamental reason, it is argued, why capital should not be as readily available for the development of a nation's agricultural resources as for the development of its railway and banking interests. The movement must next meet with opposition, but the Western farmer is seeking relief from an intolerable condition, it is shown.

Will Give Doctors More Pay

London.—The cabinet has considered increased remuneration for the doctors under the Insurance Act. It is understood that it agreed to increase the amount allocated to them by \$5,000,000 annually, making possible the payment of 7s. 6d. (£1.80) per insured person a year and thus meeting the doctors more than half way. The doctors declared the least they would accept was \$2.04 and the government offered \$1.44 after first offering \$1.00.

Wilbur Wright

Darton, O.—Wilbur Wright, the deceased aviator, according to an accounting, filed in the Probate Court left an estate valued at \$279,298. He left \$50,000 to his brother, Lorin Wright, and \$50,000 to his sister Katherine. He gave \$1,000 to his father, Bishop Wright, and \$126,875 to his mother Orville.

THE SUNDAY SCHOOL

LESSON III.—FOURTH QUARTER FOR OCTOBER 20, 1912

Text of the Lesson, Mark vii, 24-30; Matt. viii, 5-13—Memory Verses 27, 28—Golden Text, John vi, 37—Commentary by Rev. D. M. Stearns.

The two incidents of these lessons, though far separated as to the time of their occurrence, are both illustrations of great faith on the part of two people who were not of Israel—foreshadowings no doubt, of the time when blessings shall go from Israel and her righteous king to all other nations as set forth in Ps. lxxvii and many other places in such wonderful words as these, "God be merciful unto us and bless us, that Thy way may be known upon earth. Thy saving health among all nations" and meantime contrasting the "little faith" or "no faith" of those of lesser privilege.

The story of the woman of Tyre and Sidon follows in the regular order of events, while that of the Roman centurion takes us back to a time just after the choosing of the twelve apostles. Both events are recorded by Matthew; the centurion also in Luke vii and the gentle woman in Mark in the lesson of today. The great words in each lesson are, to my mind, "O woman, great is thy faith, be it unto thee even as thou wilt," and, "Verily I say unto you, I have not found so great faith, no, not in Israel. Go thy way, and as thou hast believed, so be it done unto thee." (Matt. xv, 28; viii, 10-13).

Taking the story of the centurion first, we note that his servant, who was dear unto him, was sick unto death, and the messengers who came to Jesus on his behalf spoke of the centurion's love for the nation and how he had built them a synagogue; but the centurion himself, said, either personally or by his messengers, that he was not worthy to have the Lord Jesus come under his roof, but that if He would only speak the word His servant would be healed. When the messengers returned to the centurion's house they found the servant whole that had been sick. He had been healed in the same hour that Jesus had said, "As thou hast believed, so be it done unto thee."

As Jesus commended the centurion's faith He said to the people that many would come from all parts and share the kingdom with Abraham, Isaac and Jacob, while many who, supposed they were sure of it would find themselves cast into outer darkness. How essential it is that we become in God's way His children and know that our names are written in heaven (Luke x, 20; Rev. xx, 15; xxi, 8), for many who profess to be His will have to hear Him say, "I never knew you, depart from Me" (Matt. vii, 21-23). Mark the poverty of spirit or consciousness of the importance of his position, but evidently from his heart, Lord I am not worthy. Something of the spirit of him of Luke xviii, 13-14, who went to his house justified. There is only one who is truly worthy, and when we take our right place before Him He is ready to honor all the faith we place in Him.

As to the other incident I have often thought that Jesus went away off there to be refreshed by that woman's great faith, for knowing all things, He knew all about her and her trouble and the way she would come to Him and cling to Him and take no denial. Nothing pleases Him like faith, and without faith it is impossible to please Him. It is written that the centurion's servant was very dear unto him; but here it is a mother pleading for her own daughter who must have been dear to her, and specially dear because of her affliction, for the sick one in a home generally has the sympathy of all. As we think of those who are dear to us do we consider the words of our Father in heaven concerning His only begotten Son. This is My beloved Son in whom I am well pleased? (John iii, 16; Matt. iii, 17; Avii, 35). Let us also lay to heart that we do not honor the Father unless we honor the Son; and that since God spared not His own Son, He will with Him also freely give us all things (John v, 23; Rom. viii, 32).

Probably this distressed mother did not know these great truths, but she knew that she had a greatly afflicted daughter, she had heard of this wonderful teacher who could heal all diseases and cast out demons and had no doubt longed to reach Him, but He was too far away, and so her case seemed hopeless. But now He had come near to her, the blessing was within her reach, and as soon as possible she is at His feet beseeching Him for her daughter. To get the complete record we must put the accounts in Matthew and Mark side by side. To her first appeal Jesus answered her not a word.

The disciples besought Him to send her away. He then said that He was sent only to the lost sheep of the house of Israel. She first cried unto Him as the Son of David, now she says, "Lord, help me." To this He replied: It is not meet to take the children's bread and cast it unto the dogs. Then came her conquering appeal: Yea, Lord, let the dogs under the table eat of the children's crumbs. Willing to own herself a gentle dog pleading for a crumb, she gets all she came for. For this saying go thy way; the devil is gone out of thy daughter. In each of these cases note the extreme weakness and lowliness of the applicants.

London.—A young girl who had swallowed a brooch has been cured at St. Bartholomew's Hospital after an operation.

Postage Stamps Under Escort
A few years ago a small procession triumphantly escorted a sergeant carrying two postage stamps. The story of the latter is interesting. The sergeant, belonging to the French contingent of the troops of occupation arrived in Crete with a young Creole wife, whom he had married while he was serving in a French colony. She brought him no dower in money, but a handsome marriage portion all the same, consisting of two postage stamps. These are rare specimens of Mauritian issues, and have been estimated by experts as worth \$3000.
The sergeant was told that their value would increase, and instead of selling them he had them framed and placed his treasure in a Cretan bank. As the time was approaching for the departure of the troops of occupation he went to the bank with his wife to withdraw his deposit, and his comrades formed a procession to escort the couple carrying home their fortune in two postage stamps.

Trial is Expensive.—To those who suffer from dyspepsia, indigestion, rheumatism or any ailment arising from derangement of the digestive system, a trial of Parmelee's Vegetable Pills is recommended, should the sufferer be unacquainted with them. The trial will be inexpensive and the result will be another customer for this excellent medicine. So effective is their action that many cures can certainly be traced to their use where other pills have proved ineffective.

The Last Extremity
Mr. James Payn, speaking of individual interpretations of general rules, said in going round one night with the officer on guard at one of the English dockyards he heard an amusing illustration by an Irish sentry of this point.
If you see a convict escaping, said the officer, what is it your duty to do? Sure, sir, and I'm not to fire till the last extremity.
Quite right. But what do you consider the last extremity to be? Just round the corner of the dockyard there, sir! was the reply.

Minard's Liniment Cures Dandruff.
Good Idea
He was a burly, old-fashioned skipper and had not yet become acquainted with all the latest improvements on steamers. When he went on the bridge of his new steam collier the engine room telegraph was the first thing that caught his eye.
What's that for? he demanded.
That goes down to the engine-room replied the mate, who was explaining things to him. You see all the orders on it—Full speed, Half, Slow, Stop. All you have to do is just to move the handle and the things done.
If I put the handle to Full, will she go full speed? asked the captain. And if I turn it to stop, will it stop?
Certainly said the mate.
Ah, man, said the skipper, a slow glad smile lighting his face after a long silence, that's clever. It does away with all them imps of engineers.

Why suffer from corns when they can be painlessly rooted out by using Followay's Corn Cure.
The rector of a small village in Ireland recently met one of his parishioners who was a farmer and a great dog-fancier, and who was also fond of a glass of whisky. As they walked together awhile the rector, admiring some of the dogs he had with him said to the farmer:
Did you ever hear that by giving a pup whisky you kept him from growing?
Yes, replied the farmer, and I tried it.
With what results?
The pup died.
And now, my friend, said the rector, wasn't that a good lesson for you?
Bedad it was, sir, for I have never wasted a drop of good whisky on any of my dogs since.

BLACK KNIGHT STOVE POLISH

*John Bull discovers another important German Secret—
Frau Germanicus uses nothing but Black Knight Stove Polish.*

Hamburg, the first city to perceive the danger of the modern long hat-pin, has provided its tram conductors with boxes of hat-pin point-protectors. Ladies with ungarded hatpins may now choose between getting down from the car and giving the conductor an extra penny for a couple of the municipal point-protectors.

The Golden Wedding

A most pleasant and enjoyable evening was spent at the home of Mr and Mrs Wm Morfitt of Bowden, on Friday, October 18th, when the immediate family along with a few honored guests gathered to celebrate the event of their golden wedding.

Mr and Mrs Morfitt were among the most cheerful of the evening despite the fact that Mrs Morfitt was suffering from a painful fall on the frozen ground, and received during the early part of the day.

The wedding supper was, by no means a small item of the evening. The table actually groaned under the good things prepared by Mrs Morfitt and her daughters. The table was handsomely decorated with Chrysanthemums and ivy leaves which all had a golden tint. After the supper was over, the evening was passed in games, conversation and a ch— by the grandchildren after which the assembly broke up and retired in the "we Sma' hours"

The members of the family present were Mr and Mrs Robt Knowels of Granton, Ont.; Mr and Mrs Sinclair Craig of Windermere, B.C. Mr and Mrs Geo Morfitt and family of Calgary; Mr and Mrs C E Morfitt; Mr and Mrs S Fisher and family and Mr and Mrs Jno Morfitt of Bowden.

The remaining daughters Mrs Morrey of Blanshard and Mr David Morfitt of Swan River, Man., were unable to be present. The honored guests were Rev. and Mrs West of Olds; Mr and Mrs I Teeling; Mr and Mrs H Powell; Mr and Mrs John Howard, Mrs William Paynter of St. Marys, Ont., and Mr and Mrs Chas A Johnston.

Mr and Mrs Morfitt during their fifty years of married life have succeeded in making the world brighter and happier to a very great extent, beside raising a family worthy of their time. They can, from a worldly standpoint look upon their family as being all well married and each enjoying a prosperous position in life. The grandchildren already number thirty-three, one of whom is married.

The bride and groom of half a century were presented with over one hundred dollars in gold beside other presents suitable for the occasion.

All who were present as well as those living around join in wishing them many more happy returns of the season although it is scarcely expected that they will see many more half century celebrations of their own married life.

A McLean shipped 150 head of cattle on the 24th. 100 coming from Mr. Brightman and 50 from Mr. Hudson.
